

A Resolution To End Indoctrination Of Children In Public Schools

Whereas the civil government school system has been the primary promoter of socialistic anti-American ideals in our community;

Whereas government schools have proven themselves to be untrustworthy by forbidding prayer and the teaching of the Bible and promoting critical race theory cultural Marxism sexual deviancy abortion atheism evolutionism-mandated vaccination and other false and harmful ideas;

Whereas the conservative exposure and intervention that prevented certain schools from teaching critical race theory this year in no way guarantees government schools will not attempt this kind of indoctrination again in the future with greater success;

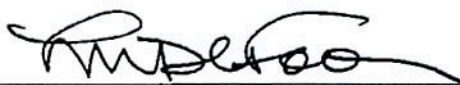

Whereas parental protest and interference at school board meetings have proven to be insufficient at checking the advance of leftism and have only brought parents under investigation and labeled domestic terrorists;

Whereas the sustainability of all conservative victories is at risk if the next generation does not understand and embrace Republican values which are American values;

Be it resolved that the delegates of the Georgia 14th Congressional District convention call upon all American families to become more involved in the education of our children to reform public schools to a more Christian-oriented curriculum we furthermore support families' decisions to remove their children from public school if they so choose furthermore

It resolved that every public school should have a local governance board compromised of at a minimum two parents two members of the community and two teachers to ensure that our children receive the education they deserve.

Adopted this 22nd day of April 2023.
